

CLEAR THE PATH.

ZR® Pre-Filled Flush Syringes
Help reduce the risk of syringe-generated blood reflux

Flush away catheter issues.

Syringe-generated blood reflux can cause serious complications. Delays in patient care. Increased risk of infection. Added costs.

ZR® Pre-Filled Flush Syringes minimize the risk of catheter occlusion to enhance patient safety and help improve outcomes.

- » Clearly marked saline or heparin labels help lower the risk of medication error
- » Not made with natural rubber latex and preservative free
- » Terminally sterilized for added safety
- » Barcoded to speed inventory control and minimize errors
